Members,

Please read Ron Schara's message below. No doubt you will want to queue up your DVR to capture the series.

Bill

Subject: TV series

Bill--please share with my fellow council members. After months of filming, we have launched a 4 - week series about massive changes in Mn farming landscape, impacting water quality, flooding, wildlife populations. Subjects we address as a Council.

We call it: Minnesota: Going Down the Drain?

First part will reair Saturday at 6:30 p.m. on KARE, unless postponed by a football game. Entire series eventually will be on our website, [mnbound.com](http://mnbound.com).

We also plan to repeat series in January to a larger audience.

In the fall, NBC carries sunday night football which delays our sunday airtime beyond 11:30 at night where normally [mnbound](http://mnbound.com) airs at 10:30.

Ron
