**Subject:** FW: The Land Ethic Reclaimed: A UW-Madison MOOC

Dear Council members:

Below is a Continuing Studies announcement from the University of Wisconsin – Madison.

U of W's Massive Open Online Courses (MOOCs) are available to the general public, are provided online and are free of charge. Several MOOCs are scheduled successively through the coming months. The January study is based upon Land Ethic and promises to be very interesting.

If you are interested in participating in this or a later online opportunity, simply click on the associate U of W link below.

Have a great week.

Mark

## *The Land Ethic Reclaimed: A UW-Madison MOOC*

*"A thing is right when it tends to preserve the integrity, stability and beauty of the biotic community. It is wrong when it tends otherwise."*

--Aldo Leopold, 1948, *A Sand County Almanac*

On January 26, 2015, the University of Wisconsin-Madison invites you to join us for a unique, free online learning experience: our Massive Open Online Course (MOOC) **[The Land Ethic Reclaimed: Perceptive Hunting, Aldo Leopold, and Conservation.](#)**

MOOCs are free, non-credit, online learning opportunities available to everyone. They're one of many ways UW-Madison is continuing to extend our lifelong learning and outreach mission to new audiences.

**The Land Ethic Reclaimed**, one of six MOOCs being offered over the next 18 months, will explore topics such as the historical legacy of wildlife management and recreational hunting as a part of conservation, the role of wildlife in ecosystems, and contemporary models of conservation.

All learners and "perceptive hunters" are encouraged and welcome to participate, whether you're active hunters, hunting-curious, or simply nature enthusiasts. We especially invite you who participate in the wild ecology of your place and want to explore the American conservation model and Aldo Leopold's land ethic.
