Agenda Item Memo

DATE       December 13, 2011

SUBJECT:   Accomplishment Plan Amendment:
           MN Laws 2011, 1st Special Session, Ch. 6, Art. 1, Sec. 2, Subd. 5(f)
           Restoring Native Habitat and Water Quality to Shell Rock River

Background

The Shell Rock River Watershed District has requested an accomplishment plan amendment to remove a 70 acre land donation, valued at $280,000, from the leverage tables. This land donation is a separate transaction between the watershed district and the land owner and is not directly connected to the Headwaters project. The landowner has exercised his option and substituted another parcel of land (4.13 acres), with an appraised value of $330,000. The new location is not directly related to the Headwaters project at this time.

Motion

“Motion to approve/deny the amendment request.”

Legislative Citation: Minn. Laws 2011, 1st Special Session, Chapter 6, Article 1, Section 2, Subd. 5(f) Restoring Native Habitat and Water Quality to Shell Rock River - Phase II

Abstract:
The SRRWD has proposed acquiring fee title to 257 acres of land that encompasses the headwaters of the Shell Rock River and develop long range resource management for recreation opportunities.

Program Narrative

Design and Scope of Work

Shell Rock River Watershed District (SRRWD) Management Plan developed in 2004 has identified goals for accelerating programs for improved habitat, water quality and flood control. Acquiring the 257 acre parcel allows SRRWD to meet these goals and open opportunities for the public that includes recreation, hunting, fishing and educational experiences incorporated in the habitat and recreational development plan for the project.

The project is time sensitive, it is essential to secure a US Army Corps of Engineers 206 Federal Grant for replacement of the current dam that controls the water level for Albert Lea Lake at the headwaters of the Shell Rock River which continues to flow south through the middle of the parcel to be purchased. The currently dam is in disrepair and at risk of failure. Requirements of the USCOE 206 Grant include that the watershed district owns the property adjoining the dam. The variable crest dam will allow for management of game fish and rough fish passage and the ability to manage water levels facilitating shoreline and littoral area restoration of Albert Lea Lake.

The 257 acre parcel has various natural amenities that include the headwaters and 1.4 miles of the River, floodplain and mesic hardwood forest, undisturbed highly diversified wetland complexes and
riparian and stream bank corridor on a parcel that is a mile long and approximately ½ mile wide. Parts of the site have undisturbed native plant communities, other parts are thought to have pre-historic Native American habitation sites and others have already been mined for sand and gravel. Opportunities of native habitat restoration for the parcel include seed bank development, wetland creation and restoration, native prairie establishment, floodplain forest and mesic forest restoration and shoreland restoration of the Shell Rock River. The parcel can provide unique recreational opportunities to utilize the River for canoeing, tubing and fishing; the lands can be developed with nature trails, interpretative programs about ecology, water and archeology and both day use and camping can be developed. The development of a resource inventory and management plan would address all the opportunities for public ownership and public use of the parcel.

The habitat development portion of the plan includes protection, preservation and enhancement of the existing natural resources, which includes wetland and forest restoration, sediment retention, aquatic and shoreline restorations. The Plan also includes restorations and habitat structures for amphibians and reptiles, aggregate resource and sand pit restoration plans. The Watershed District will work in conjunction with local DNR fish and wildlife agencies to establish a fisheries management plan for the Shell Rock River, a fish rearing basin and wetland habitats, located on the existing site. The recreation development portion of the plan includes walking trails with interpretive information and recreational access. These will all be elements of the development plan. The Long-term Habitat Management plan will be identifying the baseline environmental conditions on site, the conditions proposed for the project and how these conditions will be maintained in the future.

The Shell Rock River Watershed District will be the fiscal agent receiving funds for the project with the following local agencies providing technical input and assistance: Freeborn County Soil & Water Conservation District, Minnesota Natural Resources Conservation Service, Freeborn County, Minnesota Department of Natural Resources, US Army Corps of Engineers and the City of Albert Lea.

Planning
This project would be working under the following published resource management plans;

The Minnesota Conservation and Preservation Plan Phase II provisions that address the control of invasive species, the restoration of shallow lakes, water quality improvements in impaired waters and the protection and enhancement of fish and waterfowl breeding habitat (pg 57-90).

The 2004 Shell Rock River Watershed Management Plan addresses the project as a top priority (Appendix E, F &J).

The Minnesota Department of Natural Resources Invasive Species Control Program.

Freeborn County Comprehensive Water Plan

These projects are within the stated goals of the Basin Alliance for the Lower Mississippi in Minnesota (BALMM)

Endorsed by local Chamber of Commerce and Sportsmen’s Club
**Relationship to Other Constitutional Funds**

After acquisition, this project will co-ordinate with another grant opportunity, a US Army Corps of Engineers 206 Federal Grant. A $4.8 million grant for replacement of the current dam and ecosystem restoration. The USCOE 206 Grant requires the District owns the property adjoining the dam. The variable crest dam will allow for management of game fish and rough fish passage and the ability to manage water levels, facilitating shoreline and littoral area restoration of Albert Lea Lake. As part of the purchase agreement for the 257 acre land parcel the landowner has agreed to donate an additional 70 acres of land to the SRRWD. This proposed donation is within the statutory boundary of Helmer Myre State Park and would allow for habitat restoration and expanded public use, possibly as an extension of Helmer Myre State Park. The SRRWD will provide $2.6 million in funding and/or in-kind services. The project is time sensitive, it is essential the District acquire this land to secure the 206 Federal Grant.

**Relationship to Current Organizational Budget**

Acquisition of these parcels will be provided through L-SOHC funding. The purchase is essential to secure the US Army Corps of Engineers 206 Federal Grant. The District currently operates under $2 million annual budget and has the matching funds available. The District has budgeted funds for a small portion of the overall proposed project and for continued annual maintenance.

**Sustainability and Maintenance**

Future long-term priorities for the project include natural resource restoration, management and enhancement, in addition future facility development that may include campgrounds, walking trails, canoe access and various other amenities determined in the habitat and recreation development plan efforts. Requests in the future to the LSOHC and LCCMR for this project could include continued requests for acquisition funds, natural resource restoration funds for the purpose of restoring and managing plant communities and recreation development funds for future project facilities.

Long-term costs and maintenance for the property are part of the Minnesota Department of Natural Resources and a small part of the operating budget for the SRRWD, which derives its financial support from a local option sales tax, grants and donations. The District has a public budgeting process. The SRRWD will be the purchasing agent and would then turn the property over to the Department of Natural Resources as a new Aquatic Management Area for the citizens of Freeborn County and the State of Minnesota.

Re:  Shell Rock River Watershed District Headwaters Restoration Project

Dear Mr. Benda:

Your correspondence of November 14, 2011 requested that I write to the Watershed District relative to the "donated property" mentioned in the Option Agreement dated July 14, 2010. That property being in the SE 1/4 of the SE 1/4 of Section 11 and the NE 1/4 of the NE 1/4 of Section 14, less a tract, all in Township 102 North, Range 21 West has been sold by me.

I propose to donate the following described property in its place: The West 400 feet of the South 450 feet of the SW 1/4 SE 1/4 of Section 25-T102N-R21W. This is also identified as Parcel No. 08-025-0020 and is shown on the survey as Beau Jensen’s excepted tract.

Sincerely,

MEMORANDUM OF OPTION AGREEMENT

THIS MEMORANDUM OF OPTION AGREEMENT is made and entered into this 14th day of July, 2010, by and between Pensco Trust Co. (hereinafter "Pensco"), Osterbroen Properties, LP, by Gregory D. Jensen, its General Partner (hereinafter "Osterbroen Properties"); Osterbroen Family, LP, by Gregory D. Jensen, its General Partner (hereinafter "Osterbroen Family"); and Gregory D. Jensen, a single person (hereinafter "Jensen") (collectively referred to as "Sellers"); and Shell Rock River Watershed District, a political subdivision under Minnesota law (hereinafter "Buyer").

Sellers and Buyer have entered into an Option Agreement dated July 14, 2010 (the "Option"), under which Buyer and Sellers have agreed to sale terms for certain real estate located in Freeborn County, Minnesota described in attached Exhibit A, and incorporated herein by reference (the "Property").

Sellers and Buyer desire to give notice of the existence of the Option against the property until July 14, 2012.

NOW, THEREFORE, in consideration of the Option Agreement and the covenants contained therein, the parties hereto agree as follows:

1. The Property is subject to an option to purchase granted to Shell Rock River Watershed District, a political subdivision under Minnesota law for purchase of the Property for a period until and including July 14, 2012.

2. All of the terms, covenants, and conditions contained in the Option are hereby incorporated in this Memorandum by reference, and this Memorandum shall be deemed to constitute a single instrument.
IN WITNESS WHEREOF, the parties have executed this Memorandum of Option Agreement as of the day and year first above written.
