Pursuant to M.S. 97A.056, Subdivision 15, this letter notifies you that the Lessard-Sams Outdoor Heritage Council has received notice from the Minnesota Department of Natural Resources (MN DNR) concerning the requested conversion of forestland to road right-of-way and a conveyance of a permanent road easement to Itasca County. The state interest in the land was purchased by the MN DNR with Outdoor Heritage Funds (ML 2009, Ch. 172, Art. 1, Sec. 2, Subd. 3). The attached letter from Gary Michael, MN DNR Cooperative Forest Management Supervisor, describes the action.

Pursuant to statute and the council’s approved operating procedures, and in the absence of disapproval by leadership or the council by June 20, 2019, I will approve the conveyance and forward notification to Mr. Michael of the MN DNR so the conveyance can take place.

Please contact me if you have questions regarding this matter. I will withhold final notification until June 20, 2019 to hear from you, if you have concerns.

Sincerely,

Mark Wm. Johnson  
Executive Director  
Lessard-Sams Outdoor Heritage Council

Mr. Gary Michael, Members of the LSOHC

Mark:

Itasca County is proposing a County Road project that will impact lands owned by Blandin Paper Company over which the State holds a conservation easement funded in part by the Outdoor Heritage Fund. The project will result in a conversion of forestland to road right-of-way and a conveyance of a permanent road easement to Itasca County. The State’s easement will remain in effect on the land.

Project Description: The Itasca County Highway Department is proposing a reconstruction project on County State Aid Highway 60 during the summer of 2020. The proposed work will include reconstruction of the current road which will require a permanent easement across one parcel (Tax Parcel #23-030-9000) located in the Southwest Quarter of the Southeast Quarter (SWSE), Section Thirty (30), Township Fifty-seven (57) North, Range Twenty-four (24) West, Itasca County, Minnesota. The permanent easement is approximately 3.86 acres (shown on the attachments).

The estimated value of the easement is:

Permanent Easement  \( (3.86 \text{ acres}) \times (\$1300/\text{acre}) = \$5,018.00 \)

Total Value:  \$5,018.00

Easement Share:  \( (\$5,018.00) \times (0.4082954) = \$2,048.83 \)

\textbf{OHF Share:}  \( (\$2,048.83) \times (0.777) = \$1,591.94 \)

We do not anticipate that the affected lands will be replaced by other conservation lands and propose that $1,591.94 be repaid to the outdoor heritage Fund (OHF provided approximately 77.7% of the acquisition costs.)

Sincerely,

Gary Michael

Enclosed with a return envelope are the documents necessary to facilitate acquisition of the easement(s) shown on the attached sketch for the upcoming project referenced above.  

The **first** document is a copy of the Minimum Damage Acquisition Form used by our office to establish value. This is for your information only and does not need to be returned.  

Second, are 2 identical copies of the Permanent and/or Temporary Highway Easement(s) that we wish to acquire from you. Any of the copies may be used as official originals for signature and the rest may be kept for your records. Please review and verify the information on these documents, especially the **name(s)** of the owner(s) and the names/titles of those authorized to execute conveyances for this property. Permanent Easements must be signed before a notary for recording purposes but Temporary Easements require only a dated signature. **All signed original easement document pages must be returned to us prior to payment** but, I intend to return copies of the signed original easements subsequent to any necessary recordation and/or payment processing.  

Third, are 2 signed copies of the Offer Letter. The second copy is for your records. Please review the document carefully and designate a payee (yourself or another owner) according to the instructions at the end of the letter. If everything is acceptable to you, please **sign**, **date**, and **return it** with the rest of the necessary documents.  

The fourth document is a Federal IRS W9 form that must be completed and returned by anyone designated to receive payment for this purchase.  

Thank you for your time and help addressing this matter. If you have any questions, feel free to call me at 218-327-0682.

Regards,

SUBJECT: Minimum Damage Acquisition
CSAH 60 Reconstruction (SAP 031-660-009)
Fee Owner: Blandin Paper Company, Inc.

Tract #49 (Tax Parcel #23-030-9000)
(Description based on recorded Document in Book 199 of Deeds, Page 283)
The Southwest Quarter of the Southeast Quarter (SW 1/4-SE 1/4), Section 30, Township
Fifty-five (57) North, Range Twenty-four (24) West, Itasca County, Minnesota.

Tract #52 (Tax Parcel #23-031-9000)
(Description based on recorded Document #A000268793)
The Northeast Quarter of the Northeast Quarter (NE 1/4-NE 1/4), Section 31, Township
Fifty-five (57) North, Range Twenty-four (24) West, Itasca County, Minnesota.

Tract #58 (Tax Parcel #23-029-9000)
(Description based on recorded Document #A000278648)
The Southeast Quarter of the Southwest Quarter (SE 1/4-SW 1/4), Section 29, Township
Fifty-five (57) North, Range Twenty-four (24) West, Itasca County, Minnesota.

History of Ownership
The subject property was acquired by Blandin Paper Company, the current owners,
through various instruments, between October, 1960 and October, 1971.

Purpose of Acquisition:
The purpose of the MDA is to estimate the effect on fair market value of the subject
parcel(s) from the acquisition of the highway easement(s) as shown or described on the subject
document(s) and enumerated under the Land Value section. County State Aid Highway 60 is
scheduled for reconstruction in the summer of 2020. The acquisition is necessary to reconstruct
the road alignment to appropriate standards.

Zoning Description
Currently zoned “Farm Residential” by Itasca County.

Site Description before Acquisition:
The parcels are mostly wooded in a natural or wild state with a mix of low ground and high
ground and minimal elevation relief. No structures exist on the property. The easements run
along one or two of the boundaries of the parcels.
Highest and Best Use:
Its highest and best use would be for forestry/timber and/or light public recreational use.

Acquisition Description
This acquisition is for permanent highway easement and/or temporary construction easement as shown or described on the subject document(s) and enumerated under the Land Value section.

Site Description (after easement acquisition):
The property will essentially remain the same in the after situation as in the before situation.

Land Value:

Permanent Easement:
Based upon the most recent assessed tax values, the estimated value for this acquisition of new right-of-way is as follows:

Tract #49 (Tax Parcel #23-030-9000)
(3.86 acres) X ($1300/acre) = $5,018.00

Temporary Easement:
Temporary easements acquired for owner access approaches are elective and therefore uncompensated. Temporary easements acquired for public purposes are valued at 10% of the underlying property value per year of use. Based upon the most recent assessed tax values, the estimated value for this temporary easement is as follows:

Tract #52 (Tax Parcel #23-031-9000)
(FOR OWNER'S APPROACH) = NO AWARD (OPTIONAL)

Tract #58 (Tax Parcel #23-029-9000)
(0.30 acres) X ($1300/acre) X 10% = $39.00

TOTAL VALUE = $5,057.00

MINIMUM AWARD = $5,057.00

Final Value Conclusion:
The new acquisition will not adversely affect the subject's present or future value nor will it diminish the value of the remainder.

The County of Itasca hereby submits to you an offer of $5057.00, which is based on the amount of the assessed value of the above referenced property and/or certain rights therein, as contained in the easement(s) attached hereto, disregarding any change in the before value of the property caused by the proposed project.

This purchase offer does not prohibit you from donating the land necessary to complete this project.

You will have a reasonable length of time to consider the offer (approximately 30 days). To aid in your decision you may want to secure your own appraisal. The County of Itasca will reimburse you a reasonable amount for that appraisal fee, limited by the amount and terms set by law.

Minnesota Law also provides that the owners/occupants of the property being acquired will be reimbursed for the actual cost of moving personal property. Certain incidental costs incurred in transferring the title will be paid by the County.

If you decide to accept the County's offer you will be paid upon your providing the County with the properly executed easement documents and Federal IRS W9 form(s) for income tax reporting purposes. If the County cannot be vested with good title to the property, or if the offer is unacceptable, the County may acquire said easements through eminent domain proceedings.

This is not a purchase of fee title ownership, but of easement rights. The underlying land remains under current ownership, but the County will reduce the assessed land value to reflect the easement.

This letter is furnished to inform you of procedures and your rights in this acquisition. If the terms are acceptable to you, please complete, sign, and date this
document below and return it with the rest of the required documents.

Please contact me with any questions or concerns.

Sincerely,

General Project/Site Information – CSAH 60

County State Aid Highway (CSAH) 60 in Itasca County serves as a minor connector between MN State Highway 38 and CSAH 7. The average daily traffic is 225. This level of traffic on a gravel road demands a higher level of continual maintenance. The proposed project encompasses two main parts:

Part one will include reconstructing and paving approximately 5 miles of roadway, making all of CSAH 60 a paved road. There are also stretches of road that were built through wetlands where corduroy has been exposed due to frost heaving over time. These areas are particularly rough in the spring thaw, and the road often must be closed to 1 lane to get traffic through causing safety concerns. These areas have been maintained by adding gravel where needed but the frost continues to expose them. This in turns adds to equipment maintenance and ultimately causes a rough road to drive on. The design is also able to address a few sharp corners, increasing the curve radius and bringing them up to current safety design standards.

Part two of the project includes the reconstruction of Clearwater Creek crossing. The road has limited sight distance through the creek area due to a vertical curve that does not meet minimum standards. The stream crossing consists of 2 failing 5’ diameter corrugated steel culverts. These culverts are undersized, creating a large scour hole and velocities too fast for fish passage. The Clearwater Creek crossing is currently in design phase, but we are working with the DNR on a structure replacement type and fish ladder.
